

Like the intertwining roots of a live oak, a father's passion
for wine combined with his son's love of agriculture.
The Hope Farm came to life.

The Hope Farm was created with a mission to not only enhance our personal enjoyment of wine and sustainable agriculture, but yours as well. Through thoughtful research and sourcing, we have been provided the ability to transport you to various parts of the world by the means of a glass. Each and every bottle represented here has a unique story to tell. These stories vary from a quirky biodynamic winemaker's obscure methods to a peculiar pet who left a lasting impact. So please sit back, let us grab you a glass, and lend an ear to what is beneath the cork.

The Hope Farm Favorites

SPARKLING

- ☞ **Christoph Hoch** Kalkspitz “Pet-Nat” Kamptal, Austria NV 60
“*Pétillant naturel* is the oldest method of making sparkling wine. It is also known as the *méthode ancestrale* or *ancestral method*. This winemaking technique involves bottling wine during the primary fermentation, creating a gentle carbonation.”

WHITE

- ☞ **Crossroads by Rudd** Sauvignon Blanc Mt. Veeder, California 2020 70
“The second release of the Crossroad’s Sauvignon Blanc continues to shine, especially during an incredible vintage, such as 2018. This vintage was picked in 5 separate lots, then matured in 5 different vessels, one of which is amphorae.”

RED

- ☞ **Left Coast** “Syrah Noir” Syrah/Viognier Willamette Valley, Oregon 2018 84
“At the top of our Right Bank vineyard is a one acre “hot spot” where we have planted cool climate Noir clone Syrah. A favorite of owner Suzanne, and this extremely limited production Syrah is one of her personal favorites.”

SPARKLING

“I drink it when I’m happy and when I’m sad.
Sometimes I drink it when I’m alone. When I have
company I consider it obligatory. I trifle with it if
I’m not hungry and drink it when I am.

Otherwise, I never touch it—unless I’m thirsty.”

PINK + ORANGE WINES

“Amphictyon, a Greek God that some traditions note as having been born from the earth, created pale wines of rosé color by simply mixing red wine with water. This less potent beverage helped minimize quarreling during meetings of his councilors who often leaned too heavily on wine for confidence.

In ancient Greece, white and red grapes were harvested together and pressed quickly to allow fermentation to begin. The impatience for drinkable wine usually outweighed the desire to explore higher quality winemaking. As a result, almost all wine was a natural light pink color.

Rosé remained the beverage of choice for centuries.”
